## Swiss Privacy

Data Security and Neutrality

ShockByte Mail is incorporated in Switzerland and all our servers are located in Switzerland. This means all user data is protected by strict Swiss privacy laws.

## End-to-end encryption

Automatic email security

We use end-to-end encryption and zero access encryption to secure emails. This means even we cannot decrypt and read your emails. As a result, your encrypted emails cannot be shared with third parties.

## Verified Email

S/MIME certificate on default

We use an S/MIME certificate on every email you send, which gets you a verified check mark in email apps like Gmail, Apple Mail, etc.
